THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.
Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

A schedule of the arrival and departure of the Russian fleet from various ports would be a good thing.

The Mexican Lottery Company, which has been doing business at New Orleans, has got into the hands of the law.

People in Tampa are indignant because so many of their people prefer smoking opium to the cigars made there.

If the Legislature could only have the State papers read before that body at each opening session, what a lot of pointers it would get.

The cotton crop has not suffered much by the frosts of the past two weeks, and the acreage in many parts of Florida will be up to that of last year.

A man named Gibbs, canvassing for a Chicago portrait company, suffering for remorse for the annoyance he had caused others, committed suicide at Orlando.

The bill in the Senate to prevent children under 15 years of age from working in shops, factories and mines, with a severe penalty for such offense, will put a check on child labor.

The proposed constitutional amendment introduced in the House of Representatives by Mr. Bryan of Washington is as follows: "The manufacture, transportation and sale of alcoholic liquors as a beverage shall be, and hereby is forever prohibited in the State of Florida."

The St. Johns Presbytery contemplates establishing a college at Tampa, and the city may have a chance to dispose of the Tampa Bay Hotel property for that purpose. It would seem too bad to close up the only fine hotel at Tampa, and it is doubtful if the Presbytery would care to invest so heavily on the start.

The Gainesville Sun is making a protest about the unseemly behavior of the hackmen who do business in that city. The Sun says they act like a lot of wild Comanches. But the Sun's editor has evidently not visited Jacksonville recently.—St. Augustine Record.

Yes, he has been in Jacksonville, but he slid out of the back door to avoid the mob. But such actions are not necessary, and all that is needed is for the railroads and city authorities to take action in the matter.

Representatives of the Gulf lines, the Western and trunk lines met in Buffalo, N. Y., Monday to confer on the subject of next year's rates. Ever since the present Gulf connection has been in effect efforts have been making to come to a preliminary understanding between all the roads involved, on the basis of which next year's rates could be determined without the possibility of a war between the Gulf and Atlantic Seaboard. These efforts have been resisted by the Gulf lines, but the trunk line interests recently decided to meet out by cut, and it is believed this decision will influence the Gulf lines to agree to a satisfactory arrangement in regard to the rates for the coming year.

STATE COLLEGES.

The Tampa Tribune, in an article under the heading, "Don't Go Backward," says:

"The Tribune regrets to learn that there is a sentiment amongst the Legislators of the State favorable to cutting off the appropriations of most of the State schools, concentrating all money and efforts in the University of Florida, at Lake City, and the Florida State College, at Tallahassee.

"If this were a compact State the size of Delaware or Rhode Island, the proposition would have some merit in it, but being the second largest State east of the Mississippi river, with a widely scattered population, as is the case in Florida, the suggestion is one that will meet with the strong disapproval of the people. Especially the people of South Florida, who would be compelled, in case the Legislature should take such action, to send their children for higher education to the extreme northern and western portions of the State. This would be particularly hard on the young women of this part of the State, as the advocates of the reactionary policy contemplate, it is understood, reserving the University, the leading college in the State, for males, and the State College, the minor and more distant, for female education. Both Columbia and Leon counties, where the two institutions are located, are bounded on the north by Georgia. One is west of the Suwannee river, and the other only a few miles to the east.

"Way down upon the Suwannee river!" Why not be logical, cut off all the State colleges, and establish one or two in Georgia or Alabama?

"The people of South Florida are perfectly willing that the State College and the University should receive a large appropriation, in proportion to their age and dignity, but they are not willing that the only two State-supported institutions that they have, the Bartow Military Institute, and the St. Petersburg Normal and Industrial School, all that South Florida has or asks for, should be lopped off that Georgian Florida should have all that there is to be had."

SOUTHERN SHEEP.

The Florida sheep seem to be looking in fine condition, and this is also true of the flocks in many of the Southern States. It is announced in The American Sheep Breeder that the Merino flocks introduced three years ago into North Carolina, through Samuel Archer, an experienced breeder and earnest advocate of the wool breeds of sheep, are proving a pronounced success. The flocks are in fine condition physically and the average price commanded by their wool for the three years is 20 cents, or a little more than \$2 per head each year.

In this connection Mr. Archer is quoted as saying: "I knew that the Merino breed never failed in any country as the basic foundation for the sheep business, either for wool or, eventually, mutton, and I did not believe our Southland would form any exception. Now my judgment, experience and work are in harmony when I assert that I was right and am right yet about this all-important consideration of the sheep business, with a heavy, fine wool-growing sheep, with wool as the fundamental pre-requisite, with a universally-known, healthy sheep and a profitable mutton business as a natural consequence."

The wool drop of Georgia, says The Southern Field, has been recently attracting much attention. The quality of the wool last season was good, and there has been an unsatisfied demand at about 3 to 4 cents advance over the previous year's prices.

The cities in Florida that are prospering are those that are doing business on borrowed capital. The bonded indebtedness of the United States and England has such a low rate of interest that it is cheaper to pay the interest than the principal.

How's This?

We offer One Hundred Dollars Reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligation made by his firm.

WALDING, KINNAN & MARTIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

The United States Supreme Court has delivered a knockout blow to the labor unions. The court in the case of a New York law which limited the working day of employees in bakeries and confectionery shops to ten hours, has decided that no State has the right to place an arbitrary limit on the working day of those engaged in healthful occupations. This is equivalent to declaring unconstitutional in advance the eight-hour labor law which the labor unions have been beseeching Congress to enact.

Frank Biglow, president of the First National Bank of Milwaukee, Wis., has defaulted with the banks' funds to the extent of \$1,500,000. The depositors will be protected. Wheat speculations are the cause.

Change of Mode of Execution.

New York, April 26.—In response to a memorial of Wu Ting Fang, China's former representative at Washington, an imperial edict just issued abolishes the punishment of slicing to death and substitutes immediate decapitation, cables the Pekin correspondent of the Herald. The exposure of the heads and bodies of people after execution also to be abolished. Immediate strangulation is substituted for decapitation. A reprieve until after the autumn assizes is substituted for immediate strangulation and three reprieves annual the death penalty. Branding is also abolished. Wu Ting Fang has been ordered to memorialize the government for other beneficial changes.

The Cause of Many

Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

WHITE'S Cream Vermifuge

THE GUARANTEED WORM REMEDY
THE CHILDREN'S FAVORITE TONIC.
